

## *Discovery Quest Updates*

### **Quest 7: Mountain County Park**

This was a nice building back in its day  
But over the years it has begun to decay  
Although you will not find treasure inside  
a few steps away is a great place to hide...

*[New for 2005]*

55 paces east of the building's front door  
2 banded trees you will find with hollowed out cores  
they are south of the path just over the ridge  
just past the thick grasses with mosquitoes and midges  
look in the bottom of the tree on the right  
The quest box is there just out of plain sight

### **Quest 8: Around the Square in Windom**

Page 23 – the photograph on top of second column should be with the information on page 24 which begins, "Head across the street to the southeast corner and stand in awe As you view the Romanesque arch..."
